

FAMILY II

Art. No 1228

The modern incineration toilet Family II takes incineration technology to the next level! It is equipped with new features and optimizations that will exceed your expectations. Family II is a smart solution that fits perfectly in all types of households! And of course, only a small amount of easily handled ash remains. The user friendly display notifies you when it's time to empty the ash container and perform maintenance.

Avoid drains, digging and large installations, the toilet requires electricity and ventilation. It fits both small and large households.

Capacity: for households up to 6 users

- ✓ Made in Värnamo, Sweden
- ✓ 15% lower energy consumption
- ✓ Minimized odor
- ✓ Smooth and efficient use
- ✓ Reduced maintenance requirements

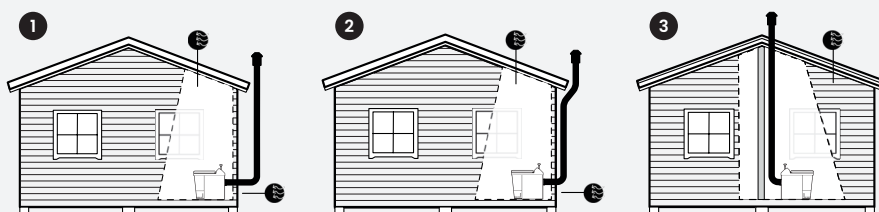

Installation

To achieve optimal combustion, it is important that Family II is installed correctly, according to the accompanying installation instructions.

There are three approved installations that we recommend, all of which require at least one of the walls in the space to be an exterior wall – choose the option that suits your conditions.

We recommend that a separate residual current device is installed.

 Fresh air vent is placed on an outer wall. If placed directly behind the toilet, underneath the ventilation pipe, min Ø110 mm, if placed elsewhere min Ø125 mm. The ventilation kit is not included

Technical data

Connections:	Ventilation out: Ø110 mm Ventilation in: Ø110mm/160 mm, depending on position
Material:	High-gloss polypropylene, recyclable, antibacterial white-painted galvanized steel
Inner container:	Acid resisting steel
Ashpan:	Acid-resistant steel
Voltage/total effect:	230 V, 1.8 kW. 10 amp.
Energy consumption:	1.7–2.5 kWh/use
Energy consumption standby:	0.4 kWh
Connection:	2,3 meters grounded wire
Noise level in use:	Fan: approximately 55 dB(A)
Seat height:	52 cm
Max user weight:	150 KG
Product measurements:	L 635 mm, W 395 mm, H 535 mm

Recommended accessories

Bag holder, incinerating bags	Art. No 1218
Ventilation kit Ø110 mm	Art. No 1181
Child seat Sally	Art. No 1157
Roof flashing	Art. No 1092
Incinerating bags	Art. No 1177
Insulated seat 200	Art. No 1215

This is included

User and installation manual, poster - how to use the toilet, installation template, 90-degree bend Ø110 mm, vent cowl Ø110 mm, Sample incinerating bags, cleaning brush, mejsel, chisel
